Aymane Naouri

AI & Data Engineering Student | Rabat, Morocco
naouriay@gmail.com | linkedin.com/in/aymane-naouri | github.com/N-Aymane

Education

École Marocaine des Sciences de l'Ingénieur (EMSI) 2022 – 2027
Engineering Degree in Computer Science — in progress *Morocco*

Experience

AI Engineer Intern July – August 2026
Royal Air Maroc *Casablanca, Morocco*

- Developed an airline disruption dashboard for flight-delay prediction, risk monitoring, and financial-impact analysis using Next.js, FastAPI, and XGBoost.
- Connected the interface to a prediction API; supported demonstrations with mock data and fallback scoring.

Data Analyst Intern July – August 2025
OCP Group *Ben Guerir, Morocco*

- Analyzed Big Data and built interactive Microsoft Power BI dashboards to visualize findings and support data-informed decisions.

Full-Stack Developer July – September 2023
Digisystems *Casablanca-Settat, Morocco*

- Worked on frontend and backend development with Laravel, React, and React Native, including API design, software architecture, and database management.

Leadership & Activities

Vice President August 2025 – July 2026
EMSI AI Nexus *Rabat, Morocco*

- Contributed to innovation and R&D initiatives in AI, machine learning, deep learning, intelligent systems, and data analysis.
- Participated in the 36-hour CAN Innovation Hackathon in Rabat (December 20–21, 2025), collaborating on ideas and prototypes at the intersection of sport, AI, and data.

Selected Projects

Quant Research Dashboard | *Next.js, Python, FastAPI* Repository

- Built portfolio-performance, allocation, and strategy-diagnostic views using sample data, with a Python backend for Black–Scholes option pricing and portfolio optimization.

FORMD Fitness Tracker | *Next.js, TypeScript, Gemini, Supabase* Repository

- Developed a nutrition and training app with AI-assisted meal scans, fitness tracking, and account-based data synchronization.

Stock Management System | *Next.js, Django REST, MySQL, JWT*

- Co-developed an inventory application with a secure API, stock-movement traceability, real-time reports, low-stock dashboard alerts, and an intelligent chatbot.

Fine-Tuned Chatbot | *Python, Mistral LLM, MongoDB*

- Built a conversational application using Mistral LLM and MongoDB for context-aware interactions.

Technical Skills

Languages: Python, SQL, Java, JavaScript, TypeScript, PHP, C/C++
AI & Data: Machine Learning, Deep Learning, PyTorch, TensorFlow, XGBoost, LLMs, Power BI
Development: Next.js, React, React Native, FastAPI, Django, Laravel, REST APIs
Databases & Tools: PostgreSQL, MySQL, MongoDB, Oracle, Git, Docker, Linux

Selected Certifications

Oracle Autonomous AI Database Certified Professional; Google AI Essentials V1; IBM Introduction to Neural Networks and PyTorch; IBM Python for Data Science, AI & Development; Meta React Native.
